

## **ICWGB Hong Kong Branch** **Recognized CPD training for members -** **CICTA course for continuing education**

Construction Industry Council Training Academy (CICTA) offers a very comprehensive range of Part-time technology & supervision related courses and safety related courses. The majority of the courses are intended for the in-service construction personnel of different levels who require retraining and upgrading either in their technical skills, safety, theoretical knowledge or in their management know-how; and these courses serve as a form of continuing education in-service.

The Regional Examination Board of ICWGB Hong Kong Branch has periodically assessed the courses and found some of them satisfied to their CPD requirements, members completed these courses with certificate of attendance will be accredited by the Branch as having acquired a recognized CPD training, and the Branch name will be printed after the “external recognition” column under each course chosen in the prospectus issued by CICTA each semester.

The names of the recognized courses are shown as follows:-

1. CDM(M) Construction Dispute Management Course
2. ISA(M) ISO9001:2000 Quality Management System Internal Auditing Course for In-service Construction Personnel
3. ISO(M) ISO9001:2000 Quality Management System Course for In-service Construction Supervisors
4. RCM(M) Roadwork Construction Management Course
5. CBW(M) Conditions of Contract Course - Building Works
6. CCW(M) Conditions of Contract Course - Civil Works
7. CMP(M) Contract Management Course in Construction Projects
8. RCR(M) Reinforced Concrete - Defect Diagnosis and Remedy Course Personnel
9. CSP(Q) Safety Training Course for Competent Persons of confined Space Operations
